

CONTAINER RAMP

Quickfind Code: 960

Part Number: SALE CONTAINER RAMP

£240.00 (exc. VAT)

£288.00 (inc. VAT)

PRODUCT DETAILS

The standard container ramp is designed to be a lightweight removable ramp that enables wheeled equipment to access the container from normal ground level and to assist loading and unloading of materials and equipment.

Just 1m square it can be stored either inside or outside the container depending on your requirements and frequency of use.

Please note this product does not include hand rails or other features and is not designed to be DDA compliant, although it does have a chequer plate finish for grip. If you need a ramp for DDA purposes we can also help, please contact conversions@portablespace.co.uk to discuss your requirements.

CONTAINER RAMP BENEFITS

- Ideal for loading and unloading wheeled equipment including pallet trucks, wheel barrows, stillages and trolleys
- Wider widths can be built for specific purposes, please contact us for details
- Requires no fixings in normal use
